Do the Next Thing

3 free prompts

a COTIB LLC product

Pick the prompt that matches where you are, paste it into any AI chat app, fill in the [brackets], and start a 10-minute timer.

The prompts

1.1 The first ugly version

START: you haven't touched it yet.

```
I need to start [the thing] and I haven't begun. Give me ONE move I can finish in under 10 minutes that leaves a rough first piece on the page or screen. No research, no setup, no tools to install. Tell me exactly what to type or make first, and what "done" looks like. One sentence of instruction, one sentence of done. Nothing else.
```

3.1 No catch-up

RESTART AFTER A SKIP: you missed a day, a week, or longer.

```
I skipped [the thing] for [how long]. Don't give me a catch-up plan. Give me one move under 10 minutes that puts me back in it today, as if the skip never happened. Tell me what to do and what proof I'll have when I'm done.
```

4.3 Close the tabs

DECIDE: you're stuck between options and researching instead.

```
I've been researching [the decision] instead of making it. Tell me to close the research, then write my choice in one sentence, then take one 10-minute action that makes the choice real (send it, book it, write it, start it). Tell me exactly what that action is.
```

> **IF THE ANSWER COMES BACK TOO BIG, REPLY**
>
> ***"Too big. Smaller. One move, under 10 minutes, no research."***

Want all 28?

That's 3 of 28. The full Pack has 25 more across 5 buckets: START, CONTINUE, RESTART AFTER A SKIP, DECIDE, and SHIP.

The Pack, $24: all 28 prompts, a beginner how-to with one worked example, a Notion template, and a printable cheat sheet.

The Pack plus Assistant Setup Kit, $37: the Pack, plus a setup guide, the prompts and skills as plain text files, and onboarding steps. Bonus: the Do the Next Thing Coach, which requires your own Grok Bot account on a paid plan, sold separately.
